CONTENTS

Volume 21, Issues No. 1–15 (2001)

JOURNAL OF CLIMATOLOGY

Issue No. 1, January

Retro-active Skill of Multi-tiered Forecasts of Summer Rainfall over Southern Africa
baseline skill; canonical correlation analysis; downscaling; general circulation model; perfect prognosis; seasonal rainfall forecasts; southern Africa
W. A. Landman, S. J. Mason, P. D. Tyson and W. J. Tennant 1

The Influence of Large-scale Atmospheric Circulation on the Surface Energy Balance of the King George Island Ice Cap
ablation; Antarctica; climate change; King George Island; snowmelt; South Shetland Islands; surface energy balance; synoptic climatology
M. Braun, H. Saurer, S. Vogt, J. C. Simões and H. Goßmann 21

In Search of Zonal Circulations in the Equatorial Atlantic Sector from the NCEP–NCAR Reanalysis
Atlantic; divergent flow component; NCEP–NCAR reanalysis; vertical motion; zonal circulation
S. Hastenrath 37

A Renewal Cluster Model for the Inter-arrival Times of Rainfall Events
dry spells; rainfall; statistical inference; stochastic; Wellington, New Zealand
P. S. P. Cowpertwait 49

Atmospheric Circulation and Surface Temperature in Europe from the 18th Century to 1995
Europe; North Atlantic Oscillation; temperature; climate variability; early instrumental records; correlation; circulation/climate relationship
V. C. Slonosky, P. D. Jones and T. D. Davies 63

The El Niño–Southern Oscillation and Long-range Forecasting of Flows in the Ganges
ENSO; Ganges; stream flow forecasting; southeast Asia; statistical modelling
D. W. Whitaker, S. A. Wasimi and S. Islam 77

Bootstrap Confidence Intervals for Predicted Rainfall Quantiles
bootstrap; confidence intervals; rainfall, southern oscillation
P. K. Dunn 89

Impacts of Low Frequency Variability Modes on Canadian Winter Temperature
Canada; winter temperature; low frequency variability modes; ENSO; PDO; NAO; composite analysis; linear regression
B. R. Bonsal, A. Shabbar and K. Higuchi 95

A 40 Year Objective Climatology of Surface Cyclones in the Mediterranean Region: Spatial and Temporal Distribution
Mediterranean; objective climatology; spatial-temporal analysis cyclone; frequency
P. Maheras, H. A. Flocas, I. Patrikas and Chr. Anagnostopoulou 109

BOOK REVIEW 131

Forthcoming Papers 133

Issue No. 2, February

Disaggregating Climatic Trends by Classification of Circulation Patterns
circulation types; climatic trends; asymmetry in temperature trends; classification; Czech Republic
R. Huth 135

Objective Classification of Atmospheric Circulation over Southern Scandanavia
southern Scandinavia; atmospheric circulation patterns; weather type classification; Lamb weather types; station temperature; station precipitation
M.-L. Linderson 155

Validation of ECMWF (Re)analysis Surface Climate Data, 1979–98, for Greenland and Implications for Mass Balance Modelling of the Ice Sheet
Greenland ice sheet; mass balance; climate change; global warning; climate variables; techniques; region
E. Hanna and P. Valdes 171

Principal Sequence Pattern Analysis: A New Approach to Classifying the Evolution of Atmospheric Systems
atmospheric circulation; extended empirical orthogonal functions; principal component analysis; principal sequence pattern analysis; synoptic climatology; T-mode appoach
R. H. Compagnucci, D. Araneo and P. O. Canziani 197

Precipitation Seasonality in Eastern and Southern Coastal Spain
climate change; Mediterranean; precipitation seasonality; seasonality index; Spain
G. Sumner, V. Homar and C. Ramis 219

Modelling Low Frequency Variability in Southern Hemisphere Extra-Tropical Cyclone Characteristics and its Sensitivity to Sea-Surface Temperature
Southern Hemisphere; low frequency climate variability; extra-tropical cyclones; sea-surface temperature; atmospheric modelling
C. J. C. Reason and R. J. Murray 249

Issue No. 3, 15 March

Trends in Extreme Daily Rainfall and Temperature in Southeast Asia and the South Pacific: 1961–1998
Australasia; climate change; climate extremes; precipitation; Southeast Asia; South Pacific; temperature
M. J. Manton, P. M. Della-Marta, M. R. Haylock, K. J. Hennessy, N. Nicholls, L. E. Chambers, D. A. Collins, G. Daw, A. Finet, D. Gunawan, K. Inape, H. Isobe, T. S. Kestin, P. Lefale, C. H. Leyu, T. Lwin, L. Maitrepierre, N. Ouprasitwong, C. M. Page, J. Pahalad, N. Plummer, M. J. Salinger, R. Suppiah, V. L. Tran, B. Trewin, I. Tibig and D. Yee 269

Instrumental Pressure Observations and Atmospheric Circulation from the 17th and 18th Centuries: London and Paris
atmospheric circulation; climate variability; early instrumental data; Europe; historical climatology; late Maunder Minimum; Little Ice Age; sea-level pressure; William Derhan
V. C. Slonosky, P. D. Jones and T. D. Davies 285

Trends in the Daily Intensity of Precipitation in Italy from 1951 to 1996
daily precipitation; heavy precipitation events; Italy; trend analysis; precipitation intensity
M. Brunetti, M. Colacino, M. Maugeri and T. Nanni 299

Have Streamflow Droughts in Europe Become More Severe or Frequent?
streamflow drought; streamflow; trend test; Europe; regional study; European Water Archive (EWA)
H. Hisdal, K. Stahl, L. M. Tallaksen and S. Demuth 317

Automated Database of Mesocyclones from the HIRLAM (INM)-0.5° Analyses in the Western Mediterranean
automated database; cyclone; detection of cyclones; mesoscale; tracking of cyclones; western Mediterranean
M. A. Picornell, A. Jansà, A. Genovés and J. Campins 335

The Relationship Between the Wintertime North Atlantic Oscillation and Blocking Episodes in the North Atlantic
atmospheric blocking; composite analysis; conceptual model; North Atlantic; North Atlantic Oscillation; quasi-geostrophic potential vorticity; regression analysis; thermal forcing
A. Shabbar, J. Huang and K. Higuchi 355

The Cause of Warming Over Norway in the ECHAM4/OPYC3 GHG Integration
climate change; coupled global climate model; correlation; canonical correlation analysis; historical observations; North Atlantic Oscillation; Norway; regression
R. E. Benestad 371

Changes in the Amount of Low Clouds in Estonia (1955–1995)
East Europe; Baltic Sea region; Estonia; trend analysis; regression analysis; t-test; low clouds; amount of low clouds; types of low clouds; Grosswetterlagen (GWL); large-scale atmospheric circulation
S. Keevallik and V. Russak 389

BOOK REVIEW 399

Issue No. 4, 30 March

Climate of the Seasonal Cycle in the North Pacific and the North Atlantic Oceans
sea surface temperature; air temperature; sea level pressure; climate variability; seasonal cycle; COADS; North Pacific and Atlantic; air-sea interaction
I. M. Yashayaev and I. I. Zveryaev 401

The Spatial and Temporal Behaviour of the Lower Stratospheric Temperature over the Southern Hemisphere: The MSU View. Part I: Data, Methodology and Temporal Behaviour
stratosphere; temperature; variability; MSU; principal component analysis
R. H. Compagnucci, M. A. Salles and P. O. Canziani 419

The Spatial and Temporal Behaviour of the Lower Stratospheric Temperature over the Southern Hemisphere: The MSU View. Part II: Spatial Behaviour
stratosphere; temperature; variability; MSU
M. A. Salles, P. O. Canziani and R. H. Compagnucci 439

Spatial Variations in the Average Rainfall–Altitude Relationship in Great Britain: An Approach using Geographically Weighted Regression
altitude; precipitation; regression modelling; Great Britain
C. Brunsdon, J. McClatchey and D. J. Unwin 455

Influence of Synoptic Situations on the Precipitation in Kraków (Poland)
circulation patterns; daily precipitation; Poland; synoptic situations
R. Twardosz and T. Niedźwiedź 467

Air Temperature Fluctuations in Guadalajara, Mexico, from 1926 to 1994 in Relation to Urban Growth
Guadalajara, Mexico; heat/cool island; maximum and minimum urban temperature
I. E. Tereshchenko and A. E. Filonov 483

Homogeneity Adjustments of Temperature and Precipitation Series—Finnish and Nordic Data
homogeneity testing; metadata; Nordic; precipitation; temperature
H. Tuomenvirta 495

Variability of Cloud Microphysical and Optical Parameters Obtained from Aircraft and Satellite Remote Sensing Measurements During RACE
cloud; microphysical and optical variability; remote sensing; RACE; climate change
I. Gultepe, G. A. Isaac and K. B. Strawbridge 507

A Study of Cyclonic Disturbances over India and the Adjacent Ocean
cyclonic disturbances; frequency; periodicity; trend; variability
S. K. Patywardhan and H. N. Bhalme 527

Issue No. 5, April

Precipitation and Atmospheric Circulation Patterns at Mid-Latitudes of Asia
atmospheric processes; central Asia; Japanese Islands; precipitation; Siberia
E. M. Aizen, V. B. Aizen, J. M. Melack, T. Nakamura and T. Ohta 535

Performance of Statistical Downscaling Models in GCM Validation and Regional Climate Change Estimates: Application for Swedish Precipitation
statistical downscaling; HadCM2; CCA; EOF; precipitation; Sweden
A. Busuioc, D. Chen and C. Hellström 557

Seasonal and Interannual Variability in Atmospheric Turbidity over South Africa
aerosols; turbidity; climate; radiation; modelling; South Africa
H. C. Power and C. J. Willmott 579

Winter and Summer Hadley Circulations over Peninsular India as Monitored by MST Radar at Gadanki (13.47°N, 79.18°E)
anomalous meridional flow; atmospheric vertical motion (direct measurement); low level jet; monsoon Hadley circulation; MST radar wind measurements
V. H. Annes, K. Mohankumar and P. V. Joseph 593

Monsoon Rainfall Variations and Teleconnections over South and East Asia
monsoon rainfall; South and East Asia; Northern Hemisphere; Pacific circulation; teleconnections
R. H. Kripalani and A. Kulkarni 603

Analysis of Maximum and Minimum Daily Temperatures Recorded at Fabra Observatory (Barcelona, NE Spain) in the Period 1917–1998
daily extreme temperatures; time series analysis; homogeneity; randomness; temperature trends; entropy and power spectral analyses
C. Serra, A. Burgueño and X. Lana 617

Using Redundancy Analysis to Improve Dynamical Seasonal Mean 500 hPa Geopotential Forecasts
general circulation model; ensemble experiments; hindcast; redundancy analysis technique
X. L. Wang and F. W. Zwiers 637

BOOK REVIEW 655

Issue No. 6, May

Precipitation Trends over the Russian Permafrost-Free Zone: Removing the Artifacts of Pre-Processing
precipitation trends; Russia; wetting adjustments
P. Ya. Groisman and E. Ya. Rankova 657

Winter Temperature Covariances in the Middle and the Lower Troposphere over Europe and the North Atlantic Ocean
air temperature variability; canonical correlation analysis; Europe and North Atlantic Ocean; factor analysis; middle and lower troposphere
C. J. Lolis and A. Bartzokas 679

Pilot Study of Latewood-Width of Conifers as an Indicator of Variability of Summer Rainfall in the North American Monsoon Region
classification tree; climate reconstruction; dendroclimatology; monsoon; precipitation; North America
D. M. Meko and C. H. Baisan 697

Sunshine Records from Ireland: Cloud Factors and Possible Links to Solar Activity and Cosmic Rays
clouds; correlation; cosmic rays; Ireland; North Atlantic; solar activity; sunshine; trends
E. Pallé and C. J. Butler 709

Spatial and Temporal Persistence of Mean Monthly Temperature on Two GCM Grid Cells
altitude; downscaling; geostatistics; monthly temperature
C. Hoff 731

An Evaluation of the Standardized Precipitation Index, the China-Z Index, and the Statistical Z-Score
China; China-Z Index; drought; drought index; drought monitoring; precipitation; Standardized Precipitation Index; statistical Z-Score
H. Wu, M. J. Hayes, A. Weiss and Q. Hu 745

Interdecadal Variations of Characteristics of Monsoon Disturbances and their Epochal Relationships with Rainfall and Other Tropical Features
Indian region; Indian summer monsoon rainfall (ISMR); interdecadal variation; monsoon disturbances; 11-year moving correlation coefficients
J. Rajendra Kumar and S. K. Dash 759

Issue No. 7, 15 June

Downscaling of Temperature and Precipitation: A Comparison of Regression-based Methods and Artificial Neural Networks
artificial neural networks; circulation-based downscaling; Midwestern United States; regression
J. T. Schoof and S. C. Pryor 773

Spatial Grouping of United States Climate Stations Using a Hybrid Clustering Approach
cluster analysis; rank correlation; seasonal temperature; seasonal precipitation; station density
A. T. DeGaetano 791

Climatology of Near-Surface Wind Patterns Over Switzerland
Alps; classification, cluster analysis; complex terrain; near-surface wind; Switzerland; weather types; wind climatology
R. O. Weber and M. Furger 809

Identification of Highest Magnitude Coastal Storm Events over Western Ireland on the Basis of Wind Speed and Duration Thresholds
wind climate; storm classification; thresholds; western Ireland
P. MacClenahan, J. McKenna, J. A. G. Cooper and B. O'Kane 829

Spatial Distribution of Seasonal Rainfall Trends in a Western Mediterranean Area
Cramér-von Mises test; Mediterranean climate; rainfall trends; rainfall variability; seasonal rainfall; spatial analysis; Valencia region
J. C. González-Hidalgo, M. De Luis, J. Raventós and J. R. Sánchez 843

Changes in Total Precipitation, Rainy Days and Extreme Events in Northern Italy
daily precipitation; extreme events; Italy; precipitation intensity; return period; trend analysis
M. Brunetti, M. Maugeri and T. Nanni 861

20th Century Droughts in Southern Africa: Spatial and Temporal Variability, Teleconnections with Oceanic and Atmospheric Conditions
atmospheric conditions; composite analysis; droughts; ENSO; sea-surface temperature; southern Africa
Y. Richard, N. Fauchereau, I. Poccard, M. Rouault and S. Trzaska 873

Correlation Fields for Solar Radiation in Northeast Brazil
correlation coefficients; factor analysis; northeast Brazil; solar irradiation
J. C. Ceballos, J. M. de Souza and A. C. T. Dantas 887

Rapid Methods to Estimate Sky-View Factors Applied to Urban Areas
digital camera with fisheye lens; plant canopy analyser; sky-view factor
C. S. B. Grimmond, S. K. Potter, H. N. Zutter and C. Souch 903

Issue No. 8, 30 June

Tornado Climatology of Canada Revisited: Tornado Activity During Different Phases of ENSO
Canada; climatology; ENSO; tornadoes
D. Etkin, S. E. Brun, A. Shabbar and P. Joe 915

United Kingdom and Ireland Precipitation Variability and the North Atlantic Sea-Level Pressure Field
East Atlantic pattern; EOF analysis; linear regression; North Atlantic Oscillation; precipitation variability; sea-level pressure; United Kingdom and Ireland
S. J. Murphy and R. Washington 939

Evolution of Tropical and Extratropical Precipitation Anomalies During the 1997–1999 ENSO Cycle
El Niño; ENSO; La Niña; precipitation; tropics
S. Curtis, R. Adler, G. Huffman, E. Nelkin and D. Bolvin 961

Seasonality and Atmospheric Dynamics of the Teleconnection Between African Rainfall and Tropical Sea-Surface Temperature: Atlantic vs. ENSO
African rainfall; atmospheric circulation; composite analysis; ENSO; interannual variability; NCEP/NCAR reanalysis; seasonal patterns; tropical SST
P. Camberlin, S. Janicot and I. Poccard 973

A Tree-ring Reconstruction of Past Precipitation for Baja California Sur, Mexico
Baja California Sur, Mexico; dendroclimatology; ENSO-precipitation; Pinus lagunae*; Sierra de la Laguna*
S. C. Díaz, R. Touchan and T. W. Swetnam 1007

Evolution of Maritime Continent Thunderstorms Under Varying Meteorological Conditions over the Tiwi Islands
Hector; MCTEX; satellite cloud climatology; Tiwi Islands
J. Beringer, N. J. Tapper and T. D. Keenan 1021

BOOK REVIEW 1037

Issue No. 9, July

SPECIAL REVIEW ISSUE

Editorial
G. R. McGregor 1039

Satellite Rainfall Climatology: A Review
passive microwave; rainfall; satellite climatology
C. Kidd 1041

Forty Years of Numerical Climate Modelling
Archaen; climate models; climate system; deforestation; earth models of intermediate complexity (EMICs); feedbacks; global climate models (GCMs); greenhouse warming; land-use change; last glacial maximum; mid-Holocene, Milankovitch; models; ozone hole; palaeoclimate
K. McGuffie and A. Henderson-Sellers 1067

Current Approaches to Seasonal-to-Interannual Climate Predictions
dynamical prediction; ensembles; ENSO; probabilistic forecasts; seasonal climate variability; statistical prediction
L. Goddard, S. J. Mason, S. E. Zebiak, C. F. Ropelewski, R. Basher and M. A. Cane 1111

Abrupt and Sudden Climatic Transitions and Fluctuations: A Review
abrupt climate changes; Dansgaard-Oeschger events; Europe; global warming; Heinrich events; Holocene; Little Ice Age; thermohaline circulation
J. G. Lockwood 1153

Issue No. 10, August

Subtropical Cold Surges: Regional Aspects and Global Distribution
cold surges; global distribution; NCEP–NCAR reanalysis; transient heat transport
R. D. Garreaud 1181

Low Frequency and Quasi-Biennial Oscillations in the Malaysian Precipitation Anomaly
EOF; ENSO; Malaysian precipitation; low frequency; quasi-biennial
F. T. Tangang 1199

The Pacific–South American Modes and their Downstream Effects
blocking; rainfall over South America; Southern Hemisphere
K. C. Mo and J. N. Paegle 1211

The Analysis of El Niño and La Niña Signals in Streamflows of Turkey
annual cycle; correlation analysis; El Niño; harmonic analysis; La Niña; Southern Oscillation; streamflow; Turkey
E. Kahya and M. Çağatay Karabörk 1231

Early Detection of the Start of the Wet Season in Semiarid Tropical Climates of Western Africa
early detection; linear discriminant analysis; rainy season; western Africa; wet season
D. E. S. Dodd and I. T. Jolliffe 1251

Bayesian Hazard Analysis of Heavy Precipitation in Eastern Spain
Bayesian estimation; generalized Pareto distribution; hazard; heavy precipitation; point over threshold; Valencia, Spain
J. J. Ecozcue and C. Ramis 1263

Ice Crystal Number Concentration Versus Temperature for Climate Studies
climate studies; ice crystal number; concentration; temperature; GCMs; heterogeneous nucleation
I. Gultepe, G. A. Isaac and S. G. Cober 1281

BOOK REVIEW 1303

Issue No. 11, September

Estimating Missing Daily Temperature Extremes Using an Optimized Regression Approach
median absolute error; optimized regression analysis; temperature extreme
R. J. Allen and A. T. DeGaetano 1305

Spatial Distribution and its Seasonality of Satellite-derived Vegetation Index (NDVI) and Climate in Siberia
cluster analysis; ecosystem; GVI; phenology; precipitation; Siberia; taiga; temperature; tundra
R. Suzuki, T. Nomaki and T. Yasunari 1321

Assessing Future Changes in Extreme Precipitation over Britain Using Regional Climate Model Integrations
Britain; extreme precipitation; regional climate model; scenarios
P. D. Jones and P. A. Reid 1337

The Role of Eastern North Pacific Tropical Storms in the Rainfall Climatology of Western Mexico
Mexico; rainfall climatology; trend analysis; tropical storm rainfall
P. J. Englehart and A. V. Douglas 1357

Modelling Summer Extreme Rainfall over the Korean Peninsula Using Wakeby Distribution
annual maximum precipitation; bootstrap resampling; design value; isopluvial map; method of L-moments estimation; return period
J.-S. Park, H.-S. Jung, R.-S. Kim and J.-H. Oh 1371

An Objective Classification of Rainfall Events on the Basis of Their Convective Features: Application to Rainfall Intensity in the Northeast of Spain
Catalonia, Spain; design hyetographs; IDF curves; long-term rainfall intensity series; rainfall events classification
M.-C. Llasat 1385

Classification of Rainfall Variability by Using Artificial Neural Networks
artificial neural networks; cluster analysis; Mediterranean; rainfall variability; self-organizing feature map; weather variability
S. C. Michaelides, C. S. Pattichis and G. Kleovoulou 1401

New Zealand Climate Change Information Derived by Multivariate Statistical and Artificial Neural Networks Approaches
climate change; neural networks and multivariate statistics downscaling; New Zealand temperature and precipitation; transient general circulation models
F. S. Mpelasoka, A. B. Mullan and R. G. Heerdegen 1415

BOOK REVIEW 1435

Issue No. 12, October

Trends in New Zealand Daily Temperature and Rainfall Extremes
climate trends; New Zealand; rainfall extremes; temperature extremes
M. J. Salinger and G. M. Griffiths 1437

Reconstruction of the North Atlantic Oscillation, 1429–1983
dendroclimate reconstruction; multi-proxy reconstruction; North Atlantic Region; North Atlantic Oscillation
M. F. Glueck and C. W. Stockton 1453

Observed and SST-Forced Seasonal Rainfall Variability Across Tropical America
atmospheric General Circulation Model; Canonical Correlation Analysis; forecast skill; interannual variability; seasonal rainfall; sea-surface temperature forcing; Singular Value Decomposition Analysis; tropical America
V. Moron, M. N. Ward and A. Navarra 1467

Interannual Variability of Winter Precipitation in Northern Iberian Peninsula
baroclinic activity; Cantabrian; Eady growth; EOF analysis; Iberian Peninsula; Kolmogorov-Zurbenko filter; winter precipitation
J. Sáenz, J. Zubillaga and C. Rodríguez-Puebla 1503

Indo-Pacific Relationships in Terms of Sea-Surface Temperature Variations
Indian Ocean; Pacific Ocean; singular value decomposition; sea-surface temperatures
R. D. Sewell and W. A. Landman 1515

The Determination of Observed Atmospheric Differences Between Heavy and Light Precipitation Events in New Jersey, USA
heavy precipitation forecasting; New Jersey climate; quantitative precipitation forecasting; synoptic climatology
R. Harnack, K. Apffel, M. Georgescu and S. Baines 1529

Calculation of Direct Solar and Diffuse Radiation in Israel
atmospheric turbidity; Israel; solar radiation
S. Becker 1561

Issue No. 13, 15 November

Wintertime Temperature Anomalies in Alaska Correlated with ENSO and PDO
Alaska; Aleution low; El Niño-Southern Oscillation; Pacific Decadal Oscillation; Pacific/North American pattern; temperature anomalies; temperature inversions
J. M. Papineau 1577

Effects of Atmospheric Circulation on Ice Conditions in the Southern Baltic Coastal Lagoons
Circulation patterns; ice conditions; southern Baltic
J. P. Girjatowicz 1593

Lagged Teleconnections Between Snow Depth in Northern Eurasia, Rainfall in Southeast Asia and Sea Surface Temperatures Over the Tropical Pacific Ocean
monsoon; northern Eurasia; sea surface temperature; snow; Southeast Asia
H. Ye and Z. Bao 1607

Principal Modes of Interannual and Decadal Variability of Summer Rainfall over South America
decadal variability; EOF analysis; interannual variability; Lanczos filter; South America; summer monsoon; summer rainfall; SVD analysis
J. Zhou and K.-M. Lau 1623

A Comparison Between Two Empirical Downscaling Strategies
climate scenarios; empirical downscaling; common prinicipal components; analysis of robustness
R. E. Benestad 1645

Patterns of Monthly Rainfall Shortage and Excess in Terms of the Standardized Precipitation Index for Catalonia (NE Spain)
NE Spain; Principal Component Analysis; rainfall shortage and excess patterns; Standardised Precipitation Index
X. Lana, C. Serra and A. Burgueño 1669

Long Pressure Series for Barcelona (Spain). Daily Reconstruction and Monthly Homogenization
Barcelona; homogenization; pressure series
R. Rodríguez, M. Barriendos, P. D. Jones, J. Martín-Vide and J. C. Peña 1693

Issue No. 14, 30 November

Interdecadal Pacific Oscillation and South Pacific Climate
decadal variability; ENSO; interannual variability; Interdecadal Pacific Oscillation; mean sea level pressure; precipitation; South West Pacific climate variation; temperature
M. J. Salinger, J. A. Renwick and A. B. Mullan 1705

Spatial Variation in the Duration of the Rainy Season in Monsoonal Australia
dry season; El Niño/La Niña; ENSO; monsoon; Northern Australia; rainfall gradient; tropical savannas; wet season
G. D. Cook and R. G. Heerdegen 1723

A Conceptual Model for Understanding Rainfall Variability in the West African Sahel on Interannual and Interdecadal Timescales
atmospheric circulation; composite analysis; rainfall variability; Sahel; West Africa
S. E. Nicholson and J. P. Grist 1733

A 40-Year Climatological Study of Relative Vorticity Distribution over the Mediterranean
climatology; Mediterranean; relative vorticity; spatial–temporal analysis; vertical structure
H. A. Flocas, P. Maheras, T. S. Karacostas, I. Patrikas and C. Anagnostopoulou . . 1759

Regional Temperature Variability in the European Alps: 1760–1998 from Homogenized Instrumental Time Series
gridded dataset; homogeneity; instrumental period; regionalization; temperature time series; trends
R. Böhm, I. Auer, M. Brunetti, M. Maugeri, T. Nanni and W. Schöner 1779

FFT Analysis on NDVI Annual Cycle and Climatic Regionality in Northeast Brazil
fast Fourier transform analysis; NDVI; Northeast Brazil; precipitation variability
R. I. Negrón Juárez and W. T. Liu 1803

Comparison of Two-Layer and Single-Layer Canopy Models with Lagrangian and *K*-Theory Approaches in Modelling Evaporation from Forests
Lagrangian approach; near-field resistance; single- and two-layer canopy evaporation models
A. Wu, A. Black, D. L. Verseghy and W. G. Bailey 1821

BOOK REVIEW 1841

Issue No. 15, December

SPECIAL REVIEW ISSUE

Editorial
G. R. McGregor 1843

ENSO Variability, Teleconnections and Climate Change
climate variability; El Niño–Southern Oscillation (ENSO); teleconnections
H. F. Diaz, M. P. Hoerling and J. K. Eischeid 1845

North Atlantic Climate Variability: Phenomena, Impacts and Mechanisms: A Review
interannual time scale; North Atlantic Oscillation; climate variability
J. Marshall, Y. Kushnir, D. Battisti, P. Chang, A. Czaja, R. Dickson, J. Hurrell, M. McCartney, R. Saravanan and M. Visbeck 1863

Precipitation Measurements and Trends in the Twentieth Century: A Review
precipitation; satellite; surface gauge; twentieth century trends; variability; climate change
M. New, M. Todd, M. Hulme and P. Jones 1899

Developments and Prospects in Synoptic Climatology: A Review
climate downscaling; regional climate modelling; synoptic climatology
B. Yarnal, A. C. Comrie, B. Frakes and D. P. Brown 1923
